Independent Auditors' Report

Members of the City Council City of Whittemore Iosco County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund and the remaining fund information of the City of Whittemore, losco County, Michigan, as of and for the year ended March 31, 2005, which collectively comprise a portion of the City's basic financial statements required by accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described more fully in Note 2, management has not presented the management discussion and analysis and the government-wide financial statements to display the financial position and changes in financial position of its governmental activities. Accounting principles generally accepted in the United States of America require the presentation of the management discussion and analysis and the government-wide financial statements. The amounts that would be reported in the government-wide financial statements for the City's governmental activities is not reasonably determinable.

In our opinion, except for the effects on the financial statements of the omissions described in the preceding paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the City of Whittemore, losco County, Michigan, as of March 31, 2005, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 13, 2005, on our consideration of the City of Whittemore's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

As described in Note 2, the City of Whittemore has partially implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, as of March 31, 2005.

The budgetary comparison information is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Stephenson, Grain & Co., P.C.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City have been prepared in accordance with accounting principles generally accepted (GAAP) in the United States of America as applied to governmental units. The following is a summary of significant accounting policies.

#### A. Description of City Operations and Fund Types

The City of Whittemore operates under an elected City Council and provides services to its residents in many areas including fire protection, maintenance of major and local streets, and provision for library.

The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements, except as noted in Note 2. All activities over which the City exercises oversight responsibility have been included in the reporting entity. Oversight responsibility is determined by factors such as financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters of the entity.

Education services are provided to citizens through the local school districts which are separate government entities and are not a part of this report.

#### Joint Venture

The B.R.W. Fire Board was established as a joint venture between the City of Whittemore, Township of Burleigh and the Township of Reno. The Board was established to provide fire protection services to the constituent municipalities. The City's contribution for the year ended March 31, 2005 was \$6,452. Complete financial statements can be obtained from the B.R.W. Fire Board's office located in the City of Whittemore fire hall, Whittemore, Michigan.

#### B. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds: governmental and fiduciary.

#### **Governmental Funds**

Governmental funds are those through which most governmental functions of the City are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

General Fund - This fund is used to account for all financial transactions except those required to be accounted for in another fund. The fund includes the general operating expenditures of the City. Revenues are derived primarily from property taxes and state revenues.

Special Revenue Funds – These funds are used to account for specific governmental revenues (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. Fund Accounting (Continued)

The other governmental funds of the City account for interest and other resources whose use is restricted for a particular purpose.

#### **Fiduciary Fund**

Fiduciary fund reporting focuses on net assets and changes in net assets. This fund is used to account for assets held in trust or as an agent for others, and consists of the Current Tax Collection Fund.

#### C. Basis of Presentation

The City's basic financial statements consist of fund financial statements which provide a detailed level of financial information.

#### Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at a detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. All of the City's Governmental funds are considered major funds. Fiduciary funds are reported by type.

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenue, expenditures and changes in fund balances reflects the sources (i.e., revenues and other financial sources) and uses (i.e., expenditures and other financial uses) of current financial resources.

#### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Governmental funds use the modified accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions:

On the modified accrual basis, revenue is recognized in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within 60 days after year-end.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Basis of Accounting (Continued)

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: licenses and permits, state-levied locally shared taxes (including sales tax), grants, interest and various other items.

#### Expenditures:

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### E. <u>Use of Estimates</u>

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

#### F. Cash and Cash Equivalents

For presentation on the financial statements, investments in cash management pools and investments with an original maturity of three months or less at the time they are purchased by the Township are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

#### G. Budgets and Budgetary Accounting

The City normally follows these procedures in establishing the budgetary data reflected in the financial statements.

 The City Clerk submits to the City Board a proposed operating budget which includes proposed expenditures and the means of financing them.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### G. <u>Budgets and Budgetary Accounting</u> (Continued)

- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to April 1, the budget is legally enacted through passage of an ordinance.

All budget appropriations lapse at year end. Budgetary amounts reported herein are as originally adopted, or as amended by the City Council.

Budgets shown in the financial statements are adopted on a basis consistent with generally accepted accounting principles, and consist only of those amounts contained in the formal budget approved and amended by the City Council.

#### H. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

#### NOTE 2 - CHANGE IN ACCOUNTING PRINCIPLES

For 2005, the City has implemented, with exceptions as noted below, Governmental Accounting Standards Board (GASB) Statement Number 33 "Accounting and Financial Reporting for Non-Exchange Transactions," as amended by Statement Number 36 "Recipient Reporting for Certain Shared Non-Exchange Revenue," which establishes standards for recording non-exchange transactions on the modified accrual and accrual basis of accounting; GASB Statement No. 34, "Basic Financial Statements -and Management's Discussion and Analysis for State and Local Governments"; GASB Statement No. 37, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus"; GASB Statement No. 38, "Certain Financial Statement Note Disclosures"; and GASB Interpretation No. 6, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements".

GASB Statement No. 34 creates new basic financial statements for reporting on the City's financial activities. The financial statements include government-wide financial statements prepared on the accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type. The government-wide financial statements split the programs between governmental activities and business-type activities.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 2 - CHANGE IN ACCOUNTING PRINCIPLES (CONTINUED)

The City did not adopt GASB 34 and GASB 37 in its entirety, as permitted by the Local Audit and Finance Division of the Treasury Department of the State of Michigan (State of Michigan), because the City believes that the cost of implementing the statements may exceed the benefit of the additional information. The City also believes that the omissions of the Management Discussion and Analysis, Government-wide Financial Statements and certain permitted note disclosures were not material to the statements as a whole due to the disclosure of the fixed assets in a separate note in this report. These amounts are not included as account groups in the fund statement, as in the past, per the requirements of GASB 34.

GASB Statement No. 37 makes certain clarifications regarding escheat property and modifies several provisions of GASB Statement No. 34. GASB Statement No. 38 modifies, establishes, and rescinds certain financial statement disclosure requirements.

GASB Interpretation No. 6 clarifies the application of standards for modified accrual recognition of certain liabilities and expenditures in areas where differences have arisen, or potentially could arise, in interpretation and practice.

#### NOTE 3 - DEPOSITS AND INVESTMENTS

At year-end, the City's deposits and investments were reported in the basic financial statements in the following categories:

	vernmental Activities	duciary unds	otal Primary overnment
Cash and Cash Equivalents Investments	\$ 120,476 15,601	\$ 4,455 <u>0</u>	\$ 124,931 15,601
	\$ 136,077	\$ 4,455	\$ 140,532

The breakdown between deposits and investments is as follows:

		Primary overnment
Bank Deposits (checking accounts and certificates of deposit)	<u>\$</u>	140,532

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 3 - DEPOSITS AND INVESTMENTS (CONTINUED)

Deposits are carried at cost. Deposits of the City are held at First Bank of West Branch, West Branch, Michigan. At March 31, 2005, the carrying amounts of the City's deposits were classified as to risk as follows:

	Carrying <u>Amount</u>	Bank <u>Balance</u>		
Insured (FDIC) Uninsured – uncollateralized	\$ 115,601 <u>24,931</u>	\$ 115,601 <u>25,558</u>		
	<u>\$ 140,532</u>	<u>\$ 141,159</u>		

#### Investments:

The City Council has adopted an investment policy in accordance with Act 196, PA 1997 which authorizes the City to deposit and invest in the following:

- Accounts of federally insured banks, credit unions and savings and loan associations
- \* Bonds and other direct obligations of the United States or an agency or instrumentality of the United States
- United States government or federal agency obligation repurchase agreements
- Banker's acceptances of United States banks
- \* Commercial paper rated within the two highest classifications by not less than two standard rating services which mature not more than 270 days after the date of purchase
- \* Mutual funds registered under the Investment Company Act of 1940, Title I of Chapter 686, 54 Stat. 789 15 U.S.C. 80a-1 to 80a-3 and 80a-4 to 80a-64 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation

Michigan law requires that public funds may not be deposited in financial institutions that do not maintain an office in Michigan. The City's deposits are in accordance with statutory authority.

#### NOTE 4 - UNEMPLOYMENT COMPENSATION

The City is subject to the Michigan Employment Security Act and has elected the reimbursement method of financing. Under this method, the City must reimburse the Employment Agency for all benefits charged against the City. All liabilities incurred have been accrued in the financial statements as of March 31, 2005.

## NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 5 - RECEIVABLES AND PAYABLES WITHIN THE REPORTING ENTITY

The amounts of interfund receivables and payables as of March 31, 2005 were as follows:

Fund	Interfund <u>Receivable</u>	Interfund <u>Payable</u>		
Major Governmental Funds: General Fund Cemetery Perpetual Care Fund Total Major Governmental Funds	\$ 1,062 0 1,062	\$ 0 101 101		
Fiduciary Funds	0	961		
Total	<u>\$ 1,062</u>	<u>\$ 1,062</u>		

The amounts of interfund receivables and payables for the primary government as of March 31, 2005 were as follows:

<u>Fund</u>	Interfund <u>Receivable</u>	<u>Fund</u>	Interfund <u>Payable</u>			
General Fund General Fund	\$ 101 <u>961</u>	Cemetery Perpetual Care Fund Fiduciary Fund	\$ 101 <u>961</u>			
Total	<u>\$ 1,062</u>	Total	<u>\$ 1,062</u>			

#### NOTE 6 - CHANGES IN GENERAL FIXED ASSETS

A summary of changes in general fixed assets follows:

	alance 4/01/04	<u>Addi</u>	tions_	<u>Dele</u>	etions_	Balance 03/31/05		
Land and improvements Buildings and improvements Machinery and equipment	\$ 16,000 53,955 88,622	\$	0 0 0	\$	0 0 0	\$	16,000 53,955 88,622	
Totals	\$ 158,577	\$	0	\$	0	\$	158,577	

The City has opted to disclose these assets in order to maintain their identity and related costs.

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 7 - PENSION PLAN

The City has a defined contribution pension plan of which all employees are eligible to participate. The plan is operated through the Auto Owners Insurance Company.

A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account. Eligibility to become a participant is limited to those employees who, on the effective date or on any anniversary date, are at least age 18 but not more than age 75.

The City is required to contribute an amount equal to 12% of the employee's gross earnings.

During the year, the City's required contributions amounted to \$6,657 which is 12% of its current year covered payroll. The City's actual contributions amounted to \$6,657.

No pension provision changes occurred during the year that affected the required contributions to be made by the City or its employees.

#### NOTE 8 - EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS

P.A. 621 of 1978, Section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the City's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the City for these budgetary funds were adopted to the activity level.

During the year ended March 31, 2005, the City incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated as follows:

Fund/Activity	<u>Apr</u>	Total propriations	,	nount of enditures	Budget <u>Variance</u>		
General Fund:							
Building and grounds	\$	14,300	\$	14,550	\$	250	
Fire protection	\$	7,000	\$	10,872	\$	3,872	
Library	\$	11,800	\$	11,926	\$	126	
Major Street Fund:							
Construction	\$	6,450	\$	6,785	\$	335	
Local Street Fund:							
Routine maintenance	\$	7,426	\$	10,161	\$	2,735	
Winter maintenance	\$	2,049	\$	2,209	\$	160	

#### NOTES TO FINANCIAL STATEMENTS For the Year Ended March 31, 2005

#### NOTE 9 - PROPERTY TAXES

Property taxes include amounts levied against all real property and tangible personal property located in the City. Properties are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the County tax rolls. For the current year, the taxable value for properties located within the City was \$4,384,956. The tax rates were 8.2100 mills for operations and 1.4713 mills for fire protection.

#### NOTE 10 - OPERATING TRANSFERS

During the year ended March 31, 2005, the following transfers were made:

Description	Description			Opera <u>Transfer</u>	_	
Major Funds Major Governmental Funds: General Fund Cemetery Perpetual Care Fund		\$	195 <u>0</u>	\$	0 195	
Total Major Funds		\$	<u> 195</u>	\$	<u> 195</u>	
During the year ended March 31, 20	005, the following in	dividual fu	nd transfers	were ma	de:	
Fund	Operating <u>Transfers In</u>		Fund			Operating Transfers Out
General Fund	<u>\$ 195</u>	Cemetery	/ Perpetual	Care Fund	d	<u>\$ 195</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them.

#### NOTE 11 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The City continues to carry commercial insurance for risks of loss. Settled claims for the commercial insurance have not exceeded the amount of insurance coverage in any of the past three years.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the City Council City of Whittemore Iosco County, Michigan

We have audited the financial statements of the governmental activities, each major fund and the remaining fund information of the City of Whittemore as of and for the year ended March 31, 2005, which collectively comprise a portion of the City's basic financial statements and have issued our report thereon dated May 13, 2005. The report on the governmental activities was qualified because the Management Discussion and Analysis and Government-Wide Financial Statements were not included in the basic financial statements. Except as discussed in the preceding sentence, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Whittemore's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Whittemore's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain other matters of noncompliance that we have reported to management of the City in a separate letter dated May 13, 2005.

This report is intended solely for the information and use of management, City Council and the Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.

May 13, 2005

Members of the City Council City of Whittemore Iosco County, Michigan

#### Dear Board Members:

We have audited the financial statements of the City of Whittemore for the year ended March 31, 2005, and have issued our report thereon dated May 13, 2005. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under U.S. Generally Accepted Auditing Standards and Government Auditing Standards.

As stated in our engagement letter dated March 26, 2005, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting standards. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

As part of our audit, we considered the internal control of the City of Whittemore. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the City of Whittemore's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our tests was not to provide an opinion on compliance with such provisions.

#### Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the City of Whittemore are described in Note 1 to the financial statements. As described in Note 2 to the financial statements, the City changed accounting policies as a result of adopting, with certain exceptions, Statement of Governmental Accounting Standards (GASB Statements) No. 33, 34, 36, 37 and 38, in the year ended March 31, 2005. We noted no transactions entered into by the City of Whittemore during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

#### Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

#### Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the City of Whittemore's financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or unrecorded by the City of Whittemore, either individually or in the aggregate, indicate matters that could have a significant effect on the City of Whittemore's financial reporting process.

Members of the City Council City of Whittemore May 13, 2005 Page Two

#### Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

#### Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### <u>Issues Discussed Prior to Retention of Independent Auditors</u>

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City of Whittemore's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing our audit.

#### Additional Information

As a result of our tests of compliance, one matter came to our attention upon which we would like to comment and offer the following recommendations:

#### **Budget Control**

The City incurred expenditures in various funds in excess of appropriated amounts. We recommend that the City Council continue to review the adopted budgets on a periodic basis and amend as needed to be in compliance with the Uniform Budgeting and Accounting Act.

We wish to express our appreciation for the cooperation and courtesies extended our staff by the employees of the City.

This information is intended solely for the use of management, City Council and the Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.
